Sponsorship Opportunities

Laracon EU 2016

An introduction

Laracon EU is an annual gathering of web developers focused on building more sophisticated applications using the Laravel PHP web-application development framework.

The Laravel PHP framework is a leading PHP framework—the most popular PHP project on GitHub, and boasts a Twitter following of over 40,000 developers. This year, we expect over 500 developers, project managers, and business owners to join us in Amsterdam to improve their craft and establish valuable relationships.

Sponsoring Laracon is the premiere way to get your brand in front of the entire Laravel audience—not just developers at the conference, but also those watching along online.

Sponsorship Levels

We feel that a personal and unique approach works best for both of us, so please don't hesitate to contact us (details below) to iron out any details that will help to create a mutually beneficial relationship.
